Dr. Gajanan Chavhan
Prof. & HOD, Dept. of Emergency Medicine

EDITOR'S NOTE

Season's greetings to all!

It gives me immense pleasure and I am humbled to be the Chief Editor of this bulletin. The Meghe Group Of Hospitals is proud to release the inaugural issue of the quarterly Journal on the Occasion of our Chairperson's, Hon. Shri Dattaji Meghe's Birthday, November 11th. Hon. Shri Dattaji Meghe has been the guiding force and visionary in establishing our institute which is a unique and standalone organization in the central part of India, providing comprehensive healthcare to all sections of society. Under his guidance, our institution has spread the light of education in Vidarbha and Maharashtra bringing about tremendous transformation in the social, educational and cultural field for the upliftment and betterment of the common.

Drawing upon the last 30 years of our healthcare delivery and medical education in Central India, we would like to reach out to our patrons, peer groups, and our society to bring about awareness and discuss wellness and diseases to improve the quality of life. This inaugural journal is introducing our various facilities and services at our various hospitals. With the subsequent journals, we will be concentrating on

1. Wellness and Lifestyle tips for a longer and improved quality of life
2. How to deal with Chronic Illness and Acute Emergencies
3. Seasonal and infectious diseases

We hope to bring about a difference by sharing real-life instances of how we have helped patients in their healthcare journey.

We look forward to keeping you engaged in this journey...

Dr. Hemant Deshpande

MD(Anaesthesia)

FFICM (Critical Care Medicine), EDIC (UK)

'Hopes to Smile': The Journey of Hospitals at Meghe Group.

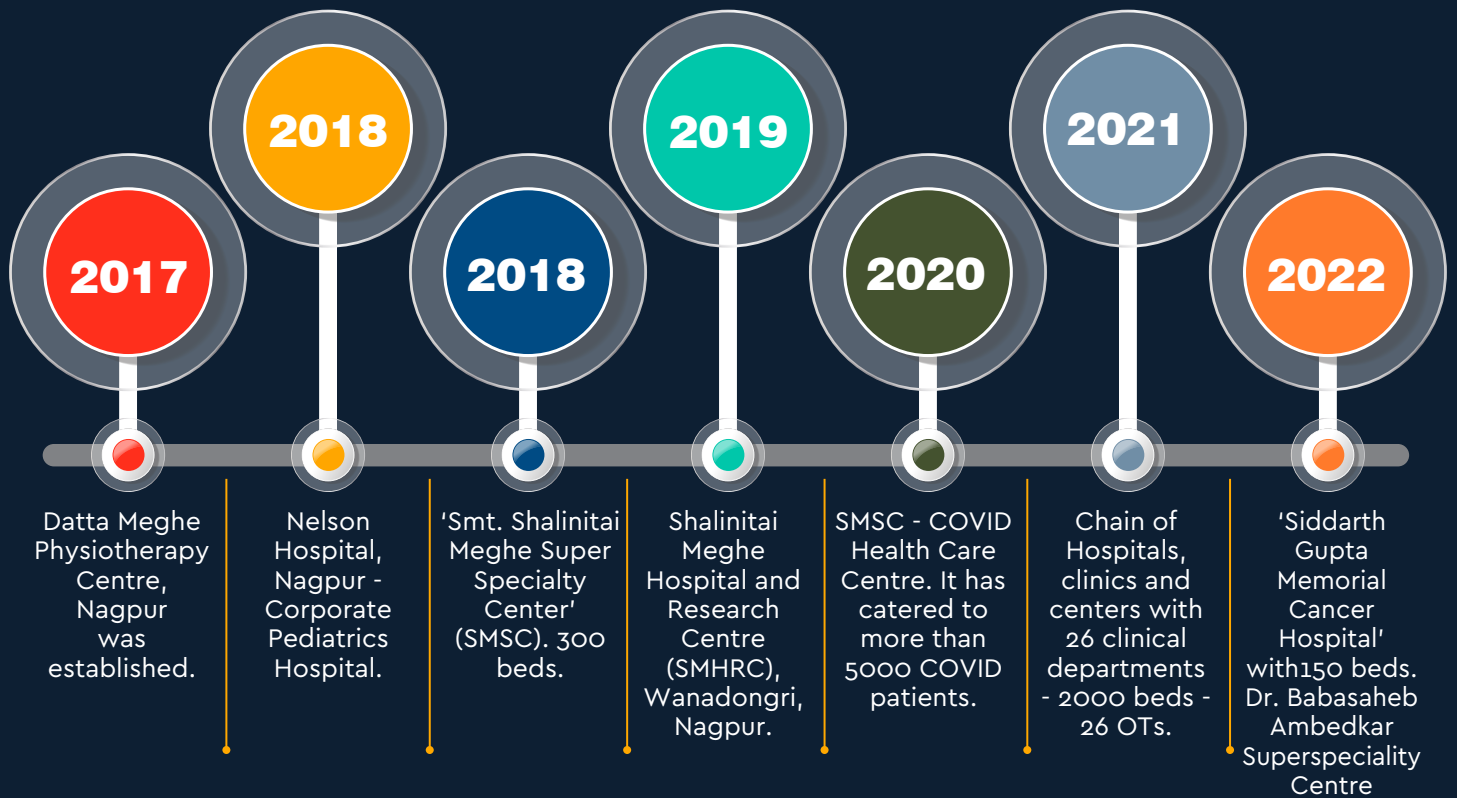

It gives me immense pleasure to write the Journey for Meghe Group of Hospitals

Meghe Group of Hospitals are iconic for affordability, state of art health care facilities. All this is driven by the vision of "Transforming Lives through Well Being", ably led by exemplary leaders from Meghe Family- Shri Dattaji Meghe, Shri Sagar Meghe And Shri Sameer Meghe. It's one of the most vibrant and prestigious health destination replacing Hopes with Smiles.

Thanking all the stakeholders, particularly our patients.

- Mortuary Services
- Medical Records Department
- Pharmacy
- Material management
- Social Services
- Security
- Mortuary services

OUR CHERISHABLE ACHIEVEMENTS

Giant cell Tumor knee treated with proximal tibia

A case of 50 year old male showed giant cell tumor with increasing swelling around his left knee joint limiting his knee range of motion which is associated with pain. Our team of experts immediately switch to wide local excision of the tumor from the proximal tibia and mega-prosthesis placement to provide a salvageable limb to the patient and avoid the amputation.

A hope to cancer survivor at Acharya Vinoba Bhave Rural Hospital

Manda Thakare, 52, a female cancer survivor came to AVBRH wincing and crying due to upper limb pain. Dr. Jeshnu Tople, in-charge of Pain Clinic, AVBRH, an interventional pain specialist assessed her and diagnosed her with CRPS (complex regional pain syndrome), a rare but extremely painful condition.

101 successfull deliveries

Test Tube Baby Center has successfully delivered its 101st healthy baby. Through sincere work of Dr. Deepti Shrivastava (Director, WTTBC) & her team this success rate has been possible. Recently 6 test tube babies took birth within 7 days at the IVF Centre of SMSC.

New life to new born

Dr. Sandeep Iratwar, HOD of neurosurgeons, performed successful surgery on a 3-month-old baby named Arsh who had severe complications and saved his life. We are proud of our doctors and the Nelson community members who funded the surgery despite Arsh's family's inability to pay!

Epilepsy treated by Brain surgery at Nelson Neurosciences Centre

This is yet another feather in our cap. Dr. Sandeep Iratwar, HOD of Neurosurgeon, performed a remarkable surgery on a 28-year-old young lady who was suffering from epilepsy and helped her recover completely.
